

2024 National Threshers Association Reunion Will Pay Tribute To The 1950s And 1960s

Wauseon, OH – When the National Threshers Association (NTA) holds its 2024 reunion, steam engines that were exhibited at the group's shows in the 1950s and 1960s will be highlighted. NTA's 79th reunion will be held June 27-30, 2024 at the Fulton County Fairgrounds north of Wauseon, OH.

Other featured equipment at the 2024 show will be Ford tractors, in cooperation with the National Ford-Fordson Collectors Association, as well as Bulldog gas engines.

The NTA reunions showcase dozens of steam engines each year, along with hundreds of tractors and gas engines. Daily demonstrations include threshing, sawmill, shingle mill, veneer mill, plowing and machinery parades with covered grandstand seating for spectators. There are limited activities on Sundays that include sawmill operations.

Other highlights are antique tractor and steam engine pulling displays, operator skills contests, evening spark shows, prony brake horsepower testing, Baker fans, a steam-driven dynamo and much more. Air-powered engines are also on display, as well as photos and memorabilia exhibits dating back to the reunion's first show.

Official National Threshers Association shirts are available under the grandstand at the fairgrounds, in addition to other commemorative items. An extensive flea market features tractor and steam engine parts, authentic and reproduction manuals, antique and new tools, collectibles, signs, decals and a wide variety of other items.

One-day admission is \$5, and annual membership (good for admission on all days) is \$20. Children 12 and under are free with an adult admission.

For more information, including on-site camping details, visit <http://www.NationalThreshers.com>.
